Founder - President

Founded in June 2005, **Four Legged Friends Foundation (FLuFF)** is a 501c3 non-profit organization dedicated to promote programs that save family pets, increase adoptions and share the joy pets bring to people.

Our programs and events have been created in response to local community needs.

Another Sunny Day Fund began in memory of Sunny (picture to the right) whose owner was unable to provide the necessary veterinary care due to financial hardship. While Sunny is no longer alive, Four Legged Friends Foundation started the Another Sunny Day Fund to save the lives of other pets and ensure that a lack of finances does not prevent a pet from getting the care it needs. Ultimately, the Foundation intends to help as many animals as possible and to expand the services of Another Sunny Day Fund to include customized veterinarian payment plans and assist disabled, seniors and ill individuals who are in physical and financial hardship with the daily care of their pets.

Outreach for Paws was created to educate the public on animal welfare as well as provide pet therapy teams to visit children, the sick and seniors. Thus, enhancing the lives of people and companion animals through this outreach. FLuFF is dedicated through education on responsible pet ownership, spay and neutering, and adoptions more lives can be saved. Our outreach includes pet fairs, elementary schools and retirement communities through Dancing with the Dogs, where handlers create routines that best fit their dog's personality. Dancing with the Dogs is also partnered with pet therapy teams to visit senior living facilities, nursing homes, foster care centers, children's hospitals and more to bring joy and love to those in need of a little compassion.

Part of the Pack

Every year hundreds of millions of dollars are lost to deceptive individuals and organizations posing as legitimate charities that prey upon the giving nature of individuals and businesses. To assist good-hearted businesses and individuals and stop the improper care of animals, Four Legged Friends Foundation created Part of the Pack. The "Pack" is a network of animal organizations, businesses and community members working together on behalf of the animals that have no voice. FLuFF intends to inspect and research charities and businesses through Give Me a Paw, a 1-4 "paw" rating system. A database will be posted online to give the community a resource of animal-related services, from finding the right pet to getting their pet the care it needs. Four Legged Friends Foundation has started collecting data for the Give Me a Paw Veterinarian Guide. Stay tuned for the on line posting of the Give Me a Paw report.
